Debts and Over-Payments

TOPICS COVERED:

Determine why **school** debts are established

Determine why **student** debts are established

Examples

School Debt

7 REASONS FOR A SCHOOL DEBT

1. Student never attended the term
2. Student completely withdraws from all classes on or before the first day of term
3. School receives payment for the wrong student
4. School receives duplicate payment
5. School submits an amended certification that reduces tuition/fee amount and/or yellow ribbon amount
6. Student passed away before or during the term.
7. VA incorrectly processed the claim and paid too much to the school

Student Debt

REASONS FOR A **STUDENT DEBT**

- The student withdrew after the first day of the term (FDOT)
- The student reduced hours (whether the reduction occurred before or during the term)
- If the student attended more than one day of any of the classes certified and a payment has been issued, any debt created by the withdrawal should be charged to the student
- The school submitted a change in enrollment (1999b) and reported a reduction in tuition, fees, and/or Yellow Ribbon due to student action reducing or terminating training
- If a student drops a course and adds a course so that there is no net change in training time, any change to tuition, fees, and/or Yellow Ribbon is a student debt

Answer:

SCHOOL DEBT

Student completely withdraws from all classes on or before the first day of term

And

STUDENT DEBT

The student withdrew after the first day of the term (FDOT)

Student Debt

When a student debt is created, schools must refund tuition and fee payments to students in accordance with their established refund policies, so that the students can resolve over-payments.
